Web Development Experience

Freelance Web Developer Present

Project : **ScheduleIT**

Appointment Management platform created with internal messaging capabilities for a client

- Used **Ruby** on **Rails and Ruby** to create the backbone of the platform
- Designed and implemented a functional **database** model with 5 tables and **various associations types**
- Created 2 fully functional CRUD'S
- Implemented **Bootstrap**, **Javascript** , **JQuery** and various **Ruby Gems** to create a visually appealing look
- https://arcane-stream-73726.herokuapp.com/

Personal Projects

Submarine : A Jquery game with a score tracking system

- Used **Ruby on Rails** and **Ruby**
- Implemented a secure user login/sign up system with password encryption
- Developed the **JQuery** logic to modify the **DOM** and present the game to the user
- Connected JQuery to database using **Ajax** to track the user's score per round and create global record data
- Added **Bootstrap** for a visually appealing look
